Advt. No.: APB/GSBTM/2021/06

Seaweed Biotechnology training program, 23-27, August 2021

CSIR-Central Salt and Marine Chemicals Research Institute, Bhavnagar is the pioneering institute in the field of seaweed research and development in India, organizing five days residential training program titled “**Seaweed Biotechnology training program**” sponsored by Gujarat State Biotechnology Mission (GSBTM), Department of Science & Technology, and Govt. of Gujarat. The major objective of this course was to create a high-quality trained workforce relevant to the current and emerging needs of seaweed based industries through training of students, thus promoting entrepreneurship. The five days program contained both theory and practical session. The theoretical session covered basics of seaweeds, national and international scenario of its occurrence, and their application in various industries. Significantly this program emphasized on seaweeds biotechnology and its importance, exploring multiple products from various seaweeds inspired more trainees to start up business in seaweed.

Capacity : 10 Nos

Qualification : Candidates who are currently pursuing their M.Sc. in Botany / Biotechnology / Marine Science.

Selection criteria: Candidates needs to send one-page crisp write up on why this training program is crucial to improve their skill. The screening will be carried out based on the write up prepared besides other measurable criterias.

Fees : 2478/- per participant (2100/- + GST@18%), Free accommodation will be given in Hotel/ Guest house. Food and refreshment will be provided during entire period of training. Only selected candidates will be provided bank details for payment of fees.
