Have Hypertension? Try Vegetable Salt!! SALONI: THE VEGETABLE SALT

everything you are looking for is here!

Alleviate Hypertension

Suppress Elevation of BP

Rich in micronutrients

Rich in Pottasium & Magnesium

Lower Sodium level

If you're a blood pressure patient, the first thing you're told to do is cut down on salt. But now a new vegetable-extracted salt is proving this fact wrong. We have developed and marketed edible salt extracted and processed from a coastal shrub.

The coastal shrub, which grows on the Gujarat coast, is rich in sodium chloride, and potassium chloride and contains few micronutrients. In the CSMCRI lab, dry powder from the coastal shrub is used to prepare what is the world's first edible salt derived entirely from plants. The salt extracted from this plant is sold as Saloni by a local entrepreneur.

REFINED HERBAL SALT
